

# Twenty-Five To Thrive

Twenty-five tasks to prepare yourself for success in any Master's or PhD program.

## 1. Learn & Practice

Master best practices in a series of step-by-step, personalized milestones for researching and applying to graduate school.

## 2. Track Your Success

Using our extensive network of advisors, trainers, and mentors, track your progress and keep moving forward.

## 3. Stand Out

Ensure that your applications, grades, references, and experience make you a competitive candidate for any graduate program.

About 25 to Thrive

### The latest innovations in student and alumni success.

This informal certificate program provides a series of core skills and personalized milestones to become a competitive candidate for graduate school, including academic, writing, testing, research, and application skills.

### Make Yourself at CASA.

Georgia State's home for supporting paths to JD, MD, MA/MS, and PhD programs, led by award-winning professors, Fulbright scholars, and outstanding, near-peer graduate student mentors.

\$72K

Average annual salary  
with a Master's degree

\$90K

Average annual salary with  
a Doctoral degree

"This is an opportunity for Georgia State... to move the needle... so that the people going into doctoral programs... look much more like the face of the country. We really want to be a part of the solution."

Mark Becker  
Georgia State University President
